

BGA Quality Policy

BG Automation maintains a Quality Management System to consistently provide quality products and services that meet or exceed customer requirements.

Management commits to:

Continual Improvement

- Enhancing the QMS to provide improved quality, cost, and delivery performance.
- Establishing objectives for achieving, maintaining, and implementing measures to ensure customer satisfaction.

Compliance

- Assuring conformity to customer, regulatory and statutory requirements.

Leadership

- Providing opportunities for employees to maximize their potential to meet quality goals and satisfy customer needs.

All employees are responsible for contributing to the success of the system.
